TennCare PCMH Program Overview

Aligned PCMH program design among all TN Medicaid managed care organizations

PCMH Practices commit to:

- Patient-centered access
- Team-based care
- Population health management
- Care management support
- Care coordination and care transitions
- Performance measurement and quality improvement

PCMH Providers receive:

- Ongoing financial support as well as financial rewards for high performance
- Training and custom curriculum
- Actionable quarterly reports on practice performance
- Access to a Care Coordination Tool with member level detail

Benefits to patients, providers, and the health care system:

- Increased quality of care for Medicaid members throughout Tennessee
- Deep collaboration between providers and health plans
- Support and learning opportunities for primary care providers
- Appropriateness of care setting and forms of delivery
- Enhanced chronic condition management
- Referrals to high-value medical and behavioral health care providers
- Reduced readmissions through effective follow-up and transition management

PCMH Payment Model Overview

PCMH Resource Investments

- **Training Vendor:** HCFA will contract with one provider training vendor on behalf of all participating providers. The vendor will provide training and technical assistance for each site while also facilitating collaboration between providers.
- **Quarterly reports:** Quarterly provider reports will include cost and quality data aggregated at the practice level. Each MCO will send reports to participating providers.
- **Care Coordination Tool:** A multi-payer shared care coordination tool (CCT) will allow PCMH practices to implement better care coordination. The tool is designed to offer useful information to PCMH practices.
